**The Berkeley Changemaker Program**

Berkeley Changemaker® goes beyond a simple focus of skills or curricular skills. With over 40 undergraduate and graduate academically-rigorous courses offered by departments across campus, it provides a clear and consistent focus on our core pillars of critical thinking, communication, and collaboration. Berkeley Changemaker is a campus-wide certificate program that enrolls some 20% of undergraduates. Students are exposed to our brightest and best faculty and alumni from across the campus, including Nobel Prize and Distinguished Teaching Award winners. It codifies an essential part of what UC Berkeley has always stood for and provides a galvanizing narrative that our whole campus is rallying, humanists and scientists alike. Our curriculum activates undergraduates' passions and develops a sharper sense of who they want to be and how to make that happen.
